The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 91-97 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Alonso-Lej, *The Annals of Thoracic Surgery*, Vol. 46, No. 3, Sept. 1988 (two pages). As seen from Figures 1 and 2 and from the text, portions of the (elongate) sutures extend into the right atrium, and an end of each suture is anchored (via Teflon patches) to a wall surrounding the right atrium (and the valve annulus).

Claims 60-62, 64, 66-68, and 83-90 are allowed.
